Message

Allow me to greet the officers, enlisted personnel and civilian employees of the Communications, Electronics and Information Systems Service AFP on its eleventh founding anniversary.

Achieving Convergence Thru Sustainable Initiatives, CEISSAFP emphasizes its critical role as the end user of various major AFP CEIS Modernization Projects that are now readily available. I therefore deem it critical for CEISSAFP to ensure that these new systems and infrastructure serve the AFP to the utmost advantage together with our existing facilities. You all belong to the largest AFP CEIS organization, a keystone unit leading the way for all other AFP signal and CEIS units.

While I congratulate and praise you on a job well done, I also wish that your most recent achievements push you even further to greater heights in meeting these modernization challenges head on.

On this note, once again my congratulations and happy anniversary!
HOORAH!
